

## Brachyspina: Testing Procedure

### **Company**

The laboratory companies 'GenoSkan' and 'dr van haeringen laboratorium bv' are currently the only laboratories licensed to complete the test for Brachyspina. It is anticipated that additional licenses will be granted to other laboratories in the future.

### **Contact**

To test for Brachyspina, please refer to <http://www.genoskan.dk/uk/genetic-tests/cattle/> or <http://www.vhlgenetics.com/vhl/index.php>

### **Procedure**

For each set of samples to be tested 'GenoSkan' requires an electronic list of the samples. The list must contain the sample ID, and information about which kind of test that is requested.

Procedures for 'dr van haeringen laboratorium bv' please contact: -  
<http://www.vhlgenetics.com/vhl/index.php>

### **Result**

'GenoSkan' will return results approximately 10 working days after receiving the samples.
