

Know Your Pedigree Certificate

Information relating to the animal itself:

- Name
- Herd Book number (SR = supplementary register, X = cross-bred)
- Blood type reference (If Available)
- Percentage Holstein/Friesian
- Owner
- Breeder
- Date of Certificated issue/re-issue

Information relating to the Animals Sire

- Name (ET indicates that the animals is the product of embryo transfer)
- Herd Book number
- Awards (If present)
- Type Classification
- PTA 2000
- Date of Calculation
- Reliability of Proof
- £PIN
- £PLI
- Type Merit
- TOP Score (Males only)
- Composite Scores
- Number of daughters to receive (EX, VG)

Information relating to the animals dam:

- Name
- Herd Book number
- Awards
- Type Classification
- PTA 2000
- Age at calving (Years and Months)
- Milk Yield (KG)
- Butterfat and Protein yields/percentages
- Production Index (PI)

Production details of the animal itself:

Where the animal does not have its own production information, a pedigree index will be included for the full PTA as well as the PIN & PLI

Milk Records (If available) of the animal would be shown in this space

Information relating to the animal itself:

- Ear tag number
- Date of birth

The central area provides information relating to the animal's grandsires and grandams. Details are the same as those given for sire and dam, but exclude heifer classifications. Note the inclusion of '2' following the maternal grandam's class and score. This indicates that she has attained and EX classification twice. 2 gen EX indicates the animal is the second generation classified Excellent. Note: The number and age in brackets after the classification denotes the age at which the animal 1st went VG or EX.

PTO for further notes.....

Further Notes:

HERD BOOK NUMBER:

This number includes a 2 digit prefix which indicates the animal's Breed Society of origin known as 'Breed Code' – e.g: '01'10055555

Holstein UK	=	01
BHS	=	12
Australia	=	47
Germany	=	60
Denmark	=	61
New Zealand	=	62
Netherlands	=	63
Canada	=	64
America	=	65
France	=	71
Italy	=	72

GENETIC CODES:

The genetic codes shown in the table may be added as suffixes to animal names. Some codes indicate the animal carries the condition (e.g. *CV) others indicate that the animal has been tested and is not a carrier of the condition (e.g. *TV). No code means that we have not been notified of the animals status. (Please do not assume animals without codes do not carry the condition, as this may not be the case)
